### Techville News

## TECHVILLE INSTALLED TWO 55" LCD IN ASIA WORLD MARKET FOR THE NEW DSA SERVICE.

Techville is currently working with Asia World Market to provide in-store advertising services for local businesses and organizations. On June 26<sup>th</sup>, our technicians installed two large (55") LCD High definition screens facing the checkout counters and the large shopping area of Asia World Market. These screens will display slideshows, videos and audios containing current announcements and advertisements from our sponsors. Customers and visitors are currently enjoying the contents displayed through these monitors.

Businesses and organizations are encouraged to take on this great opportunity to expose their products or services to potential clients from the large number of customers that visit Asia World Market everyday of the week. Techville currently offers the complete package that is flexible, affordable, and will suit any of your marketing needs. We currently have different airtime packages, sizes, and we even offer the complete video/slideshow presentations making and content management for our clients to ensure the effectiveness of their advertisements.

Digital Signage Advertising is one of the newest technologies that have been proven to work effectively in the field of marketing and advertising. Take on this opportunity to display your advertisements in the largest and the best Asian supermarket in the Dallas Area.

For More information about the Digital Signage Advertising Services or products and packages that we offer, please visit [www.techville.com](http://www.techville.com) or call us now at [\(214\) 739-7033](tel:2147397033).

## FAMILY RICE NOODLE SUCCESS STORY

On our last issue, we covered how Family Rice Noodle joined our DSA Network. We have already received positive feedbacks about our digital signage advertising services from the owners. Customers find that the Digital menu displayed is very attractive and is easy to follow. Putting their advertisement at the crowded Asia World Market also helps boost their sales opportunities.

For further info on Digital Signage Advertising Services, call us now at [\(214\) 739-7033](tel:2147397033) to schedule a demo/presentation.

## TIP OF THE MONTH

### HOW TO INCREASE YOUR PRINTING SPEED

You can improve the printing speed of your printer with managing the print spooler option. Basically printer spooler holds your prints for some time then send to printer for print out. By default on most printers, printer spooler option is enabled but you turn off to specify that the file should be sending to the printer and not spooled.

Here printer spooler option might be different location in your printer but on most printers you can turn off by going to Start, Setting then Printers. Now right click on the icon of the printer that you are using. Click Properties and select the "Advanced" tab. Here click on "Print directly to printer" option. This will tie up your application until the printer has all the data, but your print job should finish more quickly. Printing directly to the printer will also come in handy if your print spooler crashes and you need to print before you reboot your PC.

For more information for this or other IT services that we offer, please contact us at (214) 739-7033 or at [sales@techville.com](mailto:sales@techville.com)
